

2026 NFL Confidence Pool Sheet

Free printable weekly grid • sportsbrackets.net

Name: _____ Week: _____ Date: _____

How it works: Pick a winner for every game, then assign each game a confidence value from 16 (most sure) down to 1. Use each number only once. A correct pick earns the points you assigned it. Highest total that week wins. Fewer than 16 games this week? Use points 1 up to the number of games (for example 1 to 13).
