How a Blind Draw Works

1. Write each player or team on a slip and cut them out.
2. Fold the slips and mix them in a hat or bowl.
3. Draw one slip at a time.
4. The first draw goes on line 1, the next on line 2, and so on.
5. Copy the names into your bracket in that exact order.

No seeding, no bias - the draw decides every matchup.
